**Sat Aug 1, 2009**

**Magic Planet!**

**Where:** Discovery Center of Idaho, 131 Myrtle St., Boise, ID 83702

**Creator:** Discovery Center for General Events

**Description:**

Opening on July 17th is our newest permanent exhibit, Magic Planet. Magic Planet is a very high tech globe, 2 feet in diameter, that is internally illuminated with special full-motion software. This software creates images in the globe that simulate many global and atmospheric conditions that move around the earth. The effect is as if you are orbiting the earth in space looking down at conditions on earth. Visitors can pick from many simulations on our touch screen computer, and watch the full motion simulation projected from inside the globe. It is a fascinating and very educational new exhibit!

**Norco Demonstration from 2:00 to 2:30 PM**

**Where:** Discovery Center of Idaho, 131 Myrtle St., Boise, ID 83702

This software creates images in the globe that simulate many global and atmospheric conditions that move around the earth. The effect is as if you are orbiting the earth in space looking down at conditions on earth. Visitors can pick from many simulations on our touch screen computer, and watch the full motion simulation projected from inside the globe. It is a fascinating and very educational new exhibit!
