Magic Planet!

Where: Discovery Center of Idaho, 131 Myrtle St., Boise, ID 83702

Creator: Discovery Center for General Events

Description:

Opening on July 17th is our newest permanent exhibit, Magic Planet. Magic Planet is a very high tech globe, 2 feet in diameter, that is internally illuminated with special full-motion software. This software creates images in the globe that simulate many global and atmospheric conditions that move around the earth. The effect is as if you are orbiting the earth in space looking down at conditions on earth. Visitors can pick from many simulations on our touch screen computer, and watch the full motion simulation projected from inside the globe. It is a fascinating and very educational new exhibit!

This software creates images in the globe that simulate many global and atmospheric conditions that move around the earth. The effect is as if you are orbiting the earth in space looking down at conditions on earth. Visitors can pick from many simulations on our touch screen computer, and watch the full motion simulation projected from inside the globe. It is a fascinating and very educational new exhibit!

Fri Jul 24, 2009

Good Vibrations

Where: Discovery Center of Idaho, 131 Myrtle St., Boise, ID 83702

Creator: Discovery Center for Feature Exhibit

Description:

Good Vibrations features approximately 20 exhibits around the theme of sound, vibrations, cycles and repeating patterns. At this exhibition you can listen to the radio through your teeth, slap out a beat with flip-flops or play a pipe organ by selecting the pipes and pumping the bellows.

Magic Planet!

Where: Discovery Center of Idaho, 131 Myrtle St., Boise, ID 83702

Creator: Discovery Center for General Events

Description:

Opening on July 17th is our newest permanent exhibit, Magic Planet. Magic Planet is a very high tech globe, 2 feet in diameter, that is internally illuminated with special full-motion software. This software creates images in the globe that simulate many global and atmospheric conditions that move around the earth. The effect is as if you are orbiting the earth in space looking down at conditions on earth. Visitors can pick from many simulations on our touch screen computer, and watch the full motion simulation projected from inside the globe. It is a fascinating and very educational new exhibit!

New Friday Hours! - DCI open until 7:00PM

Where: Discovery Center of Idaho, 131 Myrtle St., Boise, ID 83702

Description: DCI is starting our new weekly summer hours program where we will be open until 7:00PM every Friday throughout the summer.

Young Discoverers Pre-school - 10:30 AM

Where: Discovery Center of Idaho, 131 Myrtle St., Boise, ID 83702

Creator: Discovery Center for Young Discoverers

Description: Explore and discover the wonders of science through story and activity time. The topic for today is Shadows!
